GLICK at a GLANCE

Summer 2020

VOL. 27/ISSUE 2

INSIDE:

GREASE GRITS: Fabrication Department Expansion • New Sales • Recent Deliveries • New Employees
Employee News • Firehouse Grub Recipe • Tech Tips • Pierce Saber Demo Unit for Sale!

Letter from the President

Ahhhh... Summer!

The 32nd Annual Pittsburgh FireRescue & EMS Expo was held on March 7-8. Having a chance to talk to everyone about **Pierce®**, **Demers**, and **First Priority** products was fantastic as usual, and we enjoyed hearing how the apparatus has been used in your communities. We also showcased the **Crestline CCL150 Type III Ambulance**, for which we are now the exclusive PA dealer. There was much excitement surrounding the new demo unit. We have since sold that unit, with more on order!

We currently have **Demers and Braun** stock units, plus remount ambulances, available for quick delivery. Please reach out to your regional account manager for additional information.

Many of you may already know the COVID-19 situation has caused cancellations or postponements of most events that were set to occur in the spring. This includes **FireEXPO 2020** in Harrisburg. Although we are disappointed that we cannot attend and personally meet with you, we have begun arrangements for a **Virtual Fire Expo!** We hope to host this during the week of May 11, the week FireEXPO would have been held. Please check our social media pages for updates closer to the date or visit VirtualFireExpo.com.

GLICK has also been adapting through this current situation and is still delivering new units across the state! For information and pictures of the new apparatus coming to Pennsylvania, visit www.GlickFire.com/deliveries.

Our Zelienople Facility is excited to announce the **newly expanded Fabrication Department** is up and running!

We have updated our machines and equipment, and now have ample room for your apparatus and more capabilities.

As we continue to grow, we have open positions within **GLICK Fire Equipment**. Check out the Careers section of our website, www.glickfire.com/careers, for posted positions that we are looking to fill.

If there is anything we can do to improve our service to you, I encourage you to reach out to us. Thank you for your business and the confidence you place in **GLICK Fire Equipment**.

Doug Glick
President

CAFS

(COMPRESSED AIR FOAM SYSTEM)

The onboard foam tank should be checked periodically to ensure there is good foam in the tank. The gauge may read full, but what is it full of?

Foam is simply soapy water. Class A and Class B foams are the two types of soap available. Class A is more universal and preferred.

But more is not better, as it is most effective in a 1% or lower concentration. This thinking is a common misconception, and can cause excess foam to remain in the system even though proper after-use maintenance, as outlined below, has been performed.

Proper after-use maintenance

STOPPING FOAM OPERATIONS:

- Close the air discharge valve.
- Disengage the air compressor
- Disengage the foam proportioner.
- Continue to flow water through the discharge lines.
- Close the discharge valve.
- Take the water pump out of gear.
- Open the manifold drains. Keep open long enough to bleed pressure.

It is strongly recommended to exercise the system 10 to 20 minutes a month even when not regularly used.

Reviewing and following these procedures may help prevent down time for apparatus and reduce costly repairs.

As always, our service department is here to answer any questions you may have.

Contact us at 717.299.4120 or service@gllickfire.com.

OUR ZELIENOPE FABRICATION DEPARTMENT IS EXPANDING!

***The Newly Expanded
Zelienople Fabrication
Department
is open for business!***

We have expanded to more than 4,600 square feet to accommodate your apparatus, fully set up with new machinery and equipment.

As always, our experienced and talented technicians, all certified steel and aluminum welders, are available to assist you in designing the perfect tool mounting configurations, custom trays and bins, and shelving.

***Call 724.452.5553, or email
servicewest@glickfire.com for a
consultation today!***

EMPLOYEE NEWS

Welcome to our New Employees!

JAKE BRICKNER

Jack-of-all-trades • Zelienople

Jake lives in Economy, where he was "born into" the fire service, and officially joined the Economy Volunteer Fire Department when he was 14-years-old. He began as a junior firefighter, progressed to a firefighter, and currently serves as engineer. Jake loves hunting and fishing, and working on small engines in the winter.

JOEL SHENK

Service Manager • Bird In Hand

Joel is a graduate of Ohio Auto Diesel Technical College where he earned a degree in diesel engines and equipment. He joins us with 25 years of experience in the diesel and heavy truck industry. Joel recently moved into a 200-year-old farmhouse in Frogtown with his wife, Christina, and dog, Winnie. joel.shenk@glickfire.com

KYLE GOODHEAD

Drawing Coordinator for Sales Team

Kyle joins us with 20 years of CAD and designing experience. He was an Engineering Designer for the past 9 years. He joined the East Allen Twp Volunteer Fire Dept. when he was 15-years-old and has been with them for 25 years, currently serving as webmaster, IT person, Safety Officer and a volunteer. kyle.goodhead@glickfire.com

BRYAN WALT

Mobile Service Technician • Hatfield

Bryan currently lives in East Coventry Twp. with his fiancée, Lauren, and their three boys; Ethan, 14, Payton, 9, and Austin, 6. Bryan and Lauren are very excited for their upcoming wedding in October. He joined the fire service in 2002, and is currently serving as the Assistant Engineer at Ridge Fire Co. bryan.walt@glickfire.com

CHRIS IMMS

Parts Clerk • Hatfield

Chris lives in Salfordville with his wife, Elizabeth, and his four children—Emmalynn, Sebastian, Augustine, and Henry—on a horse farm with 14 horses. He is a member of Upper Salford Fire Co. where he currently serves as Lieutenant. He enjoys farming, biking and skiing with his family, and working on his tractors. chris.imms@glickfire.com

JOHN WITMAN

Parts Clerk • Bird In Hand

John previously worked at RR Donnelley for 26 years, and most recently at Progressive Pressure Systems, Inc., as a Parts and Service Technician. He was born in Lancaster and currently lives in Bridgeport with his wife, Kris, and their son, Brennan. John enjoys traveling, fishing, cooking and spending time with his family. john.witman@glickfire.com

Technician Nate Sawyer,
and niece of Shop Tech
Allen Storms.

CONGRATULATIONS!

FIREHOUSE GRUB

CHEESEY HASH BROWNS

- 2 tsp. canola oil
- 1 onion, chopped
- 1 bell pepper, chopped
- 1 lb. frozen hash browns, thawed
- 1/2 tsp. salt
- 1/2 tsp. pepper
- 4 oz. ham, diced
- 5 cheese slices
- 2 garlic cloves, minced

In skillet, heat oil. Add onion; cook 5-7 minutes. Add bell pepper and garlic; cook 3-5 minutes. Add hash browns, salt, pepper and ham; cook 18-20 minutes until golden brown, stirring occasionally.

Top with cheese slices; cook until melted. Stir into hash brown mixture.

TUNE IN THE WEEK OF MAY 11, 2020!

*We will all be missing the **Fire EXPO** this year due to the ongoing COVID-19 situation and the subsequent cancellation of the event. We know how much you were looking forward to it as well.*

*Although we will have to wait until 2021 for the next big hands-on display, for now we will be hosting a virtual tour of the apparatus that was scheduled to appear at **Fire EXPO**.*

Please check our website and Facebook page for final details.
