## Letter from the President

*And all at once, summer collapsed into fall.*  
~ Oscar Wilde

For those who know me, I'm a woman of few words and would consider myself introverted – unless provoked of course! This newsletter edition was delayed because of my challenge to settle on a topic that would be both encouraging and positive to you, the reader.

"Do more with less" seems to be a way of life nowadays and is the new norm within society, which many times leaves us frustrated, impatient, stressed and at our wits end each day. I'm recognizing that as leaders, we need to find and bring a sense of positivity to situations, both which we can control and more importantly ones we cannot control. I'd be open to suggestions on ways you've found to adjust the mindset of others to focus on the good!

As we jump into the 4th quarter of 2023, we are all presented with long lead times, whether it's fire or EMS equipment, and even random parts. I can tell you that our manufacturer partners are focused and have made great strides supporting the upswing in orders. Pierce, as just one example, has completed the opening of a 100,000 sq. foot building in Appleton, has a fully robotic paint system operational, has hired and trained 150 new employees, and continues to explore multiple options to reduce lead times.

On the **GLICK** Fire side, we certainly continue to search for folks to join our team and have begun filling some of our long-term open positions with qualified people.

Our bursting-at-the-seams service location in Hatfield will be moving into a larger facility within the month of November, which will create more efficiency for our customers in the Southeast PA region. In addition, we've added a new product with Skeeter brush trucks, and continue to expand the parts available to you online. All of this in order to serve you and ultimately your community better.

Until next time, enjoy the cooler weather, and I challenge you to continue finding the good in people, and the good in a situation. Be safe, and be kind.

*Amy*

## Welcome to our New Employees!

### AARON BILLINGS

Service Tech • Mill Hall

Aaron is originally from Tunkhannock, PA and is currently transitioning from active-duty Air Force to Air National Guard after 11½ years of active-duty service. During his active-duty service Aaron worked in both nuclear missile maintenance and as an F-16 fighter jet crew chief. In his spare time Aaron enjoys spending time with his family, snowboarding, golfing, hunting, and fishing.  
[aaron.billings@glickfire.com](mailto:aaron.billings@glickfire.com)

### STUART MAYER

Facility Maintenance • Zelienople

Stuart has 3 adult kids and 3 dogs. He jokingly adds that, "...dogs are easier to raise." He enjoys spending his Saturdays playing baseball with special needs teens and adults. Stuart's passions include gardening and landscaping.

### MARK SCHAEFERS

Parts Dept • Zelienople

Mark lives in Butler with his wife, Suzanne. They have two children; Geoffrey, a graphic designer and children's book writer, and Brooke, who works in San Diego training dolphins and sea lions for the Navy. Mark is an avid sports fan enjoying football, hockey, baseball, and Nascar, and enjoys golf and traveling. He joins **GLICK** with 40 years of experience working in the heavy truck parts field as both inside and outside sales.  
[mark.schaefer@glickfire.com](mailto:mark.schaefer@glickfire.com)

### CARL STRICKLER

Service Manager • Bird In Hand

Carl and his wife, Loree, live in Southern Lancaster County. He previously worked for Genuine Parts Co./NAPA as their District Operations Manager. Carl has been involved in the fire service since he was a teenager and currently serves as Chief of the Rawlinsville Volunteer Fire Company. In his spare time, he enjoys sports, hunting, classic cars, and spending time with family and friends.

# APPARATUS ACCIDENTS!

**What Can You Do to Prevent It?**

**Confident Apparatus Maintenance!**

# 7

**Basic Guidelines for Weekly Vehicle  
Inspections, of all Emergency Vehicles...  
Fire Trucks, Ambulances, Squads, etc.**

**1 TIRES** – Most standards use either 2/32" or 4/32" to gauge their tread depth on commercial vehicles. PA DOT requires 2/32 for "drive" tires and 4/32 for "steering" tires. Inspect the tires for tread depth with a tire tread depth gauge, check tire pressure readings, and visually inspect tires for improper / uneven wear and keep a record of findings. The inner rear tires are the most overlooked, because of access, but should not be neglected!

**2 BRAKES** – A critical component that requires specific attention. Utilize the CDL brake test for air brake systems to test the parking brake, emergency brakes, air pressure gauges, lights, warnings, and for any leaks that may be occurring. For LD hydraulic brake systems, inspect fluid levels, parking brake, pad thickness, and any signs of leaks.

**3 VISION RELATED** – Vehicle readiness must be maintained, ensuring that all mirrors and glass are clean with no water spots, scratches, or cracks. Inspect wiper blades and ensure they are working properly and allow a clear view for all routine movements. Defroster fans & vents should be tested. (You can't avoid what you can't see).

**4 LIGHTING** – Assure that all lights (DOT & Emergency) are functioning. Check every bulb or LED light to confirm that it is illuminating. Interior lighting is just as important and should be inspected as well.

**5 MISCELLANEOUS EQUIPMENT** – Ensure that all equipment, books, computers, portable radios, medical bags, etc., are secured and cannot affect the drivability of vehicle, including any obstruction of controls.

**6 CHANGES IN DRIVABILITY** – Any changes, drifting, pulling, noises, clinks, clanks, or knocks need to be documented and investigated promptly.

**7 TOWED EQUIPMENT** – Many departments have trailered equipment that should be inspected as well. Inspect lights, brakes, tires, and axles. Secure all items on trailer, and inspect all hitch mechanisms on both trailer and tow vehicle.

If you notice an issue that needs attention, contact our service department. One of our five service locations across Pennsylvania can check your apparatus, or one of our 18 Mobile Service Technicians can go to your facility for most repairs.

**“Any changes,  
drifting, pulling,  
noises, clinks, clanks,  
or knocks need to  
be documented  
and investigated  
promptly.”**

# Skeeter

EMERGENCY VEHICLES

We are excited to announce the addition of  
**Skeeter Emergency Vehicles**  
 to the **GLICK** line of manufacturer partners,  
 providing service to all of Pennsylvania.

Skeeter trucks are designed by wildland firefighters and engineers working together to build the optimum brush truck. There will be no task too challenging to tackle, and no terrain too tough to climb.

Their wildland units are engineered and specifically designed for out-of-the-ordinary situations. They offer a variety of custom-built configurations to meet your most specific needs.

Please visit [glickfire.com/skeeter](http://glickfire.com/skeeter) for additional information and stay tuned for more details from **GLICK**!
