Letter from Jodi Mohn, Owner/VP of Finance

“We make a living by what we GET, but we make a life by what we GIVE.”

~Winston Churchill

The holiday season is upon us, and we are finding small ways each day to be grateful for our team and our vast network of support.

In this newsletter, you'll read about the recent announcements from **EMS World**, regarding the innovative new product unveilings of the **Demers MXP174** and the **Crestline CCL 166**. We are excited about these two new products, and how they will serve the EMS industry.

Our department spotlight this time focuses on our service departments and their capabilities. Now that temperatures are dipping below freezing at night, be sure to read the *Grease Grits* section to ensure your apparatus is prepared for the upcoming winter.

New this month, select **GLICK** merchandise is now available for purchase online. Read all about that and more, including upcoming shows to start off the New Year with **Monroeville Fire & EMS Expo** and **EMS Update** in March.

On behalf of our entire family, we wish to thank the emergency services community for the outpouring of support after the sudden passing of Amy. While known to some as the company president and co-owner of **GLICK Fire Equipment**, she is better known by so many as our family and a friend to all. She humbly led **GLICK Fire** with integrity and customer service at the forefront; firm when needed, yet always empathetic. She thrived on caring for all people, whether you were an employee, customer, vendor, visitor or community member.

Amy Sweitzer

Our management team recently met for our biannual retreat, and our group of 20 were blessed to start the meeting off by spending time with Pastor Mike Sigman, who shared a message that included living in the “in-between” and hope – hope in the sense of “a confident expectation for the future.”

As we determine what the organizational structure will look like during and after this “in-between” phase, we know that it will challenge us on many different levels. We are exercising patience and grace while we work through this and make the right decisions for the company and each other, that will keep us true to our values.

The one thing that we have with certainty, is a confident hope for the future of **GLICK Fire**. We remain a family-owned company that is committed to serving those who are serving their communities. We have an incredible team around us, who are focused on keeping our company vision, and our values of *Teamwork, Customer Service, and Integrity* as priority.

The vast amount of support and care we have experienced over this past month has been moving, and a true testament and honor to who Amy was to all of you. To say she will be sorely missed seems cliché, and does not even come close to the level of heartache we will continue to feel from her loss.

The best thing that we can do as a family and as a company, is to continue living as Amy wished everyone would – caring for each other.

Jodi

The Glick Family

Welcome to our New Employees!

CALEB KELLEY

Mobile Service Technician • Mill Hall

Caleb grew up in Howard, PA and has lived there for over 26 years. He and his girlfriend built their home there in August of 2024. He joins GLICK Fire with 5 years of experience in welding and mechanics, and has been a volunteer firefighter at Undine FC for 8 years and Howard FC for 11 years. In his free time, Caleb enjoys hunting, hanging out with friends, and working on diesel engines.

MIKE RINALDI

New Delivery Orientation • Central PA

Mike and his wife of 21 years live in Cumberland County with their son John and dog Leo. Mike has worked in law enforcement most of his adult life, retiring as a police officer with Shippensburg and now starting another career with Adams County. He is a life member of South Newton Twp VFC with over 35 years' experience serving in many capacities. Mike has spent many years learning about and working on fire apparatus doing preventative maintenance, electrical, and pump valve repairs. In his free time Mike enjoys spending time with family, shooting sports, seeing antique fire apparatus and model railroading.

JON VANHORN

Service Technician • Harleysville

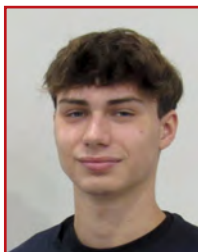

Jon grew up in Coplay, PA and currently resides in Germansville with his wife Krystal, two dogs, three cats, and one giant rabbit. Jon serves in the U.S. Army and has been a mechanic there for about 8 years. He currently serves in the reserves in an Army firefighter unit awaiting reclass school. In his free time, Jon volunteers with Fogelsville Fire Company, goes to the gym, and works on cars and trucks.

NOAH STUDDT

Co-Op Student Service Technician • Harleysville

Noah has lived in Harleysville, PA his entire life with his mom, dad, sister, and 2 dogs. Noah is a Sophomore at North Montco Technical Career Center in their Diesel Technology program and is excited to have his first Co-Op experience with GLICK Fire. When he's not attending school, Noah enjoys fishing and hanging out with friends.

Congratulations! Employee Years of Service ...

Wheelbase: 226.00" • OAH: 122.00" (10' 2.00") • OAL: 401.34" (33' 5.34")

Is Your

APPARATUS Winter Conditions?

Prepared for

As the leaves change and the crisp scent of snow fills the air, winter—and the challenging weather it brings—is quickly approaching. Severe conditions should never compromise emergency response times.

To ensure your department's apparatus are ready for any emergency in any weather, consider these key questions:

- Has the truck been Carwelled?
- Are the cab's heating and defrost systems functioning properly?
- Has the engine coolant been tested?
- Do the pump drains operate correctly?
- Does the pump remain dry after draining? (If not, valves may need attention.)
- Are the automatic snow chains working as intended?
- Are traditional snow chains in good condition?
- Is tire tread sufficient for snow?
- Are wiper blades and washer fluid winter-ready?
- Has fuel conditioner been added?

- Have you considered the benefits of installing cold-weather accessories, like heat shields and a pump house heater, to help protect the pump and related components from cold conditions?

Addressing these concerns will help keep your apparatus prepared for the winter months ahead.

SAFETY OPERATIONS

Preparing fire apparatus for winter is essential, and many departments also review cold-weather operations to ensure safety.

Key steps include:

- Keeping sand and salt at stations and emergency scenes to prevent slips.
- Refreshing firefighter training on cold-weather procedures and equipment like pump heaters, chains, and heat shields.
- Reviewing SOPs for wet/dry pump use and proper engagement on scene.

Winter can be harsh, but with the right equipment and preparation, firefighters can safely manage cold, snowy conditions.

If you'd like our service team to inspect your fleet, contact any of our five conveniently located service facilities across Pennsylvania—or schedule a visit from one of our Mobile Service Technicians at your department.

Our Service Managers comment on “Why You Should use GLICK For All Your Service Needs”

Carl Strickler
Lancaster County

“Your safety is our priority. Every repair is performed with first responder reliability in mind, using expert knowledge to ensure your vehicle gets back in service quickly and ready for the demands of the job.”

Bryan Kyper
Butler/Washington County

“We’re honored to support those who protect our communities. Our dedicated technicians provide dependable, high-quality repairs at competitive rates, so PA’s first responders can stay mission-ready when every second counts.”

Rob Stott
Montgomery County

“Our highly trained team is dedicated to ensuring your apparatus is restored to full operational strength using the most advanced methods available. Because when the next call comes, it could be for someone you care about, too.”

Joe Gault
Clinton County

“We work tirelessly to keep your department’s apparatus performing at its best. With the majority of us being in the fire industry as well, we know that when the call comes, your community is counting on you, and you can count on us.”

WE'RE GROWING ... AGAIN!

We're excited to announce that GLICK is getting a brand-new, custom-built facility right in the heart of Bird-in-Hand!

Artist rendering

Located at 2599 Old Philadelphia Pike, this impressive 46,000 sq. ft. space is scheduled to be fully operational this summer.

This expansion will allow us to move and grow several key departments:

- **Graphics & Upfit** – Our team will gain much-needed space to expand capabilities and improve workflow.
- **Fabrication** – The fabrication department will more than double its current footprint, enabling additional equipment and staff resources.

- **Parts Distribution** – A dedicated warehouse will be created within the new building, greatly improving purchasing, storage, and distribution processes to support all facilities, while still continuing to serve customers' parts needs at each facility.

Stay tuned for more updates in the coming months, including details about our Open House Celebration!

FIREHOUSE GRUB

Skillet Lasagna (Servings: 4-6)

- 1 pound ground beef
- 1 tablespoon onion powder
- 1 tablespoon garlic powder
- salt, to taste
- pepper, to taste
- 44 ounces marinara sauce
- 1/2 cup heavy whipping cream
- 1/2 cup ricotta
- 1-1/2 cups frozen spinach
- 9 lasagna noodles
- 1 cup mozzarella cheese
- bread, for serving
- Parmesan cheese, for topping (optional)

In large skillet or Dutch oven, brown ground beef with onion powder, garlic powder and salt and pepper, to taste. Drain excess grease. Mix in marinara sauce, heavy whipping cream, ricotta and spinach.

Break up lasagna noodles and add to skillet. Cover and let set over medium heat 10 minutes. Stir and top with mozzarella cheese. Cover and let set 10 minutes.

Serve with bread and top with Parmesan cheese, if desired.
