

FXP 174

Type I Ambulance

CUTTING EDGE PERFORMANCE

The award-winning FXP 174 sets a new benchmark for Type I ambulances. Built in close collaboration with frontline responders, it delivers advanced clinical design, expanded space, and transformational technology — engineered to perform on the most demanding calls.

With a reimagined layout and increased module space, the FXP 174 prioritizes ergonomic movement, intuitive equipment access, and revolutionary FX Action™ Seats that keep medics safely secured while delivering critical care — from dispatch to destination.

FUTURE FOCUSED. TRUSTED ON EVERY CALL.

KEY FEATURES:

› Door-Forward Layout

Strategic curbside door placement improves workflow and response efficiency.

› Taller Rear Doors

Designed for easier entry and exit.

› Streetside & Curbside Windows

Enhances crew visibility.

› Maximized Storage Capacity

Double-door compartments and space-saving Triple D-bottle storage, accessible via the C2 curbside door.

› Clinical Layout

State-of-the-art design focused on ergonomics, safety, and crew comfort.

› Ultrawide Electric Passthru Window

Optimizes visibility & reduces noise with sealed barrier.

› Smart Lighting

Breakthrough exterior flash patterns deliver industry-leading visibility, while adjustable interior linear lighting enhances patient comfort and care.

› Dual HVAC Ducted Diffusion System

Provides separate hot & cold air ducting for improved comfort.

› Includes Revolutionary **FX Action™** Seats

- Purpose-built ergonomic seat design for First Responders.
- Maximizes mobility while enabling optimal patient care with the push of a button.
- More opportunities to remain safely buckled during patient care.
- Stabilized seat to help perform critical tasks.
- Intuitive design enables Medics to maneuver using legs, releasing hands to care for patients.
 - Installed near stretcher & equipment to prevent unbuckling.
 - Enhanced safety with emergency lock (26G acceleration).
 - Belt & occupant sensor for driver awareness.

ECOSMART FEATURES:

› Economically and Ecologically Smart

Demers EcoSmart Technologies reduce operating costs, fuel consumption — maximizing your fleet investment.

› Lightweight All-Aluminum Design

Engineered for durability with less weight — reducing fuel consumption, chassis wear, and long-term operating costs.

› Anti-Idling System

Powered by the Demers Electronic Management System to cut engine idling, lower fuel costs, and reduce environmental impact.

› Optional Aerodynamic Roof Design

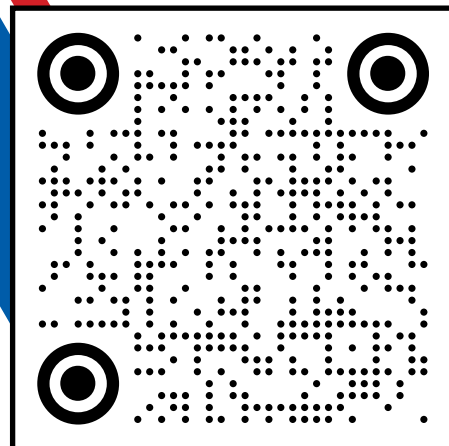

Signature roof design promotes fuel savings while integrating durable, long-life LED warning lights.

FXP 174 SPECS:

Chassis	Ford F450/550
Drive Type	2x4 or 4x4
Overall Length*	316"
Overall Width	95"
Overall Height*	112"
Interior Headroom	72"
Wheelbase*	193"
Avg. Payload Capacity	Up to 5,500 lbs

*Depending on chassis selection, total length, height, and wheelbase of vehicle may differ according to chassis and suspension.
