

TSE

Type II Ambulance

QUALITY-ENGINEERED. PROVEN FIELD PERFORMANCE.

Engineered for safety, built for performance, and proven by quality — the TSE Type II is purpose-built for modern EMS operations. Its compact footprint and fuel-efficient design deliver real operational advantages in high-demand urban environments, while a smart, ergonomic interior enhances crew and patient safety at every call.

Built on the trusted Ford Transit platform and proven across thousands of deployments, the TSE delivers intuitive operation, long-term reliability, and a total cost of ownership that makes smart financial sense for agencies of every size — shift after shift, call after call.

FUTURE FOCUSED. TRUSTED ON EVERY CALL.

KEY FEATURES:

› Industry-Leading Crew Safety

All-aluminum structure and EVS Pro4 4-point belts protect crews every shift.

› Lower Total Cost of Ownership

Designed for lower fuel and maintenance costs.

› Proven Field Performance

Real-world validated durability — consistently praised for build quality and reliability.

› MMC Multiplex Electrical System

Centralized control of lighting, climate, vehicle systems, and diagnostics.

› Superior Payload Capacity

Lightweight aluminum design adds 1,000–1,500 lbs of additional carrying capacity.

› Ergonomic Crew Efficiency

Lower entry step and optimized layout reduce injury risk and improve response.

ECOSMART FEATURES:

› Economically and Ecologically Smart

Demers EcoSmart Technologies reduce operating costs, fuel consumption — maximizing your fleet investment.

› Lightweight All-Aluminum Design

Engineered for durability with less weight — reducing fuel consumption, chassis wear, and long-term operating costs.

› Anti-Idling System

Powered by the Demers Electronic Management System to cut engine idling, lower fuel costs, and reduce environmental impact.

› Optional Aerodynamic Roof Design

Signature roof design promotes fuel savings while integrating durable, long-life LED warning lights.
